

El Paso Woodford Co. Ill.
Dear Mother.

Your Letter of
a late date come duly to hand.
We are all able to be about.
The children have all been
sick with Measles: but have
now got over their effects.
Melinda had never had
them before & was very
sick for some time, but
is now getting better. Her
Lungs having been affected
for some years past, the
Measles are leaving her with
a very bad Cough.

Unlike the weather you are having
we are getting a very dry spell
so much so that things will

soon suffer materially for
the want of Rain.
James is here. Says he
has been at Luther's &
contemplates travelling
about a considerable
before returning. He has
been near, & says he has
quit drinking Beer.
I am satisfied however, that
he is far from the path
of Duty & consequently far
from true peace & happiness.
He says Ganson has gone
to Idaho.

Our meetings continue to
be quite interesting & very
well attended, considering the
short evenings & busy time
of year, have our meetings
3 times a week.

I think I shall get on to
a piece of Government Land
as soon as I can bring
things about to enable
me to do so. I find I
cannot stand it, to work
as hard as I did last summer.
I must make some different
arrangement.

As Ever, Your Son &c
E. C. Warren.
